

ARIZONA'S WORKFORCE

A press release from the Arizona Dept. Of Economic Security, Research Administration

March 8, 2007

Arizona's Economy Loses 44,400 Mostly Seasonal Jobs; Jobless Rate Increased to 4.2%

Note: Each year at this time, the Department of Economic Security (DES), Research Administration (RA), in collaboration with the Bureau of Labor Statistics (BLS) reviews and updates the estimates for accuracy in the Local Area Unemployment Statistics (LAUS) and Current Employment Statistics (CES) programs. This process is also known as benchmarking. LAUS data -- which includes the labor force, employment, unemployment, and the seasonally adjusted and not seasonally adjusted unemployment rates -- is updated for the previous five years (2002-2006 for this year). CES data, which is the survey of industry employment, is benchmarked for the previous two years (2005-2006).

From time to time, these series may be updated for a longer period of time. Changes to industry series may be made within CES. This occurred in both instances this year.

Statewide and sub-state (MSAs and counties) LAUS data were updated back to 2002. Posting of information on Arizona Workforce Informer (AWI), however, takes time and will be published over the next month. Currently, revised LAUS data for Arizona is available from 2002 to 2006, while all LAUS data except for seasonally adjusted unemployment rates is available for sub-state areas (MSAs and counties) for 2005-2006.

Lastly, several CES industry series have been dropped or combined in the published Arizona, Phoenix Metro and Tucson Metro data tables. Details on those changes will be published at a later date.

According to the business establishment survey, Arizona's nonfarm payrolls declined by a seasonally ex-

Arizona, U.S. Economic Indicators

Unemployment Rate (Seasonally Adj.)

Arizona Nonfarm Payroll Employment (in Thousands)

	Jan. '07	Dec. '06	Jan. '06
Overall	2,680.8	2,725.2	2,562.0
Over-Month Pct. Chg.	-1.6%	0.5%	-1.6%
Year to Year Pct. Chg.	4.6%	4.6%	6.2%

pected 44,400 nonfarm jobs in January to reach a level of 2,608,800 total jobs. Losses across most industries are typical in January after the holidays. The decline, however, was below the 10-year average. Nine of 11 major industry groups reported employment losses. Jobs were lost in both goods-producing (-4,900) and in service-providing industries (-39,500). Service-providing industries represented nearly 90 percent of the total losses for the month.

Construction lost the majority of the jobs in the goods-producing industries (-4,400), largely in specialty trades (-3,800). This still represents a below 10-year average loss for this industry during January.

(continued on page 2)

Government employment had the largest super-sector loss (-15,100). The bulk of the losses occurred in local education (-10,600). State education employment decreased by 4,300. This reduction is expected to be temporary with the return of staff.

Trade, transportation and utilities pared the second largest number of jobs (-13,300). Losses were spread among all sectors. All trade sectors showed seasonally expected January losses. Retail trade accounted for the majority of the decline (-11,800), with the largest single loss coming in general merchandise (-4,100).

Professional and business services lost 6,800 jobs. Approximately 90 percent of the losses were in employment services (-5,900). Professional, scientific and technical services was the only reported sector to gain jobs (+200).

Leisure and hospitality pared 1,900 jobs, with accommodation and food services having the largest decrease (-1,300). This loss was nearly evenly split between accommodation (-600) and the food services and drinking places sector (-700).

Financial activities declined by 1,300 jobs. Losses were almost evenly divided between finance and insurance (-700) and real estate and rental and leasing (-600). While declines are typical for financial activities in January, losses were below the 10-year-average.

Educational and health services trimmed 900 jobs.

Almost all of the losses were in health care and social assistance (-800). Hospitals increased by 300.

With a decrease of 800 jobs – twice the loss in December -- information lost employment for the seventh consecutive month.

Manufacturing lost 600 jobs, with the majority of losses occurring in nondurable goods (-500). Durable goods had declines in the fabricated metal, and computer and electronic parts sectors (-200 total jobs). Aerospace products and parts was flat in January.

Other services was one of two major industry groups that added jobs in January (+600) and reached a new record level – 103,300.

Natural resources and mining was the other major industry group to gain jobs (+100) in January. Metal ore mining was flat. Job levels in mining have showed continued steady growth since 2006.

In conclusion, Arizona's economy showed typical post-holiday, seasonal-related losses in January. Nearly all supersectors trimmed employment levels; one (other services), however, reached a record level. Notably, Arizona's losses for January were below the 10-year-average, as was the case for eight of the nine major industry groups experiencing declines. When comparing to January 2006 employment levels, ten of 11 major industry groups showed gains.

Equal Opportunity Employer/Program

Under the Americans with Disabilities Act (ADA), the department must make a reasonable accommodation to allow a person with a disability to take part in a program, service, or activity. For example, this means that if necessary, the department must provide sign language interpreters for people who are deaf, a wheelchair-accessible location, or enlarged print materials. It also means that the department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. This document is available in alternative formats by contacting the Arizona Department of Economic Security, Research Administration, at (602) 542-3871.

- Notes:**
- a) Labor force, unemployment, total employment, and seasonally adjusted unemployment rate should not be used for economic-assistance programs. Data for economic-assistance programs are available by contacting DES, Research Administration
 - b) Preliminary and subject to revision in the following month
 - c) Revised Nonfarm Employment. However, beginning with the release of February 2006 data, the LAUS (Local Area Unemployment Statistics) program will no longer revise monthly estimates. LAUS data consist of labor force, employment, unemployment, and unemployment rate (unadjusted and seasonally adjusted). For more information, see the LAUS section of Arizona Workforce Informer:
<http://www.workforce.az.gov/?PAGEID=67&SUBID=142#UEStats>
 - d) Adjusted to Current Population Survey (CPS) to reflect place of residence
 - e) Normal seasonal variations have been eliminated to reflect underlying trends
 - f) By place of work; does not include agricultural workers, self-employed, unpaid family members, and domestic workers
 - g) Detail may not add up exactly due to rounding
- NA Not Available
